

Lucas Berger Guebur

Full Stack Developer

Curitiba, Brazil | Phone: +55 41 99702-6085 | LinkedIn: [/lucasguebur](#) | Email: lucasxberger@gmail.com

ABOUT ME

Software Engineer with **3+ years** of experience in **full stack web development**. Strong experience building **scalable and high-performance** applications. Focused on **delivering efficient, maintainable solutions** and continuously improving system **performance and reliability**.

TECHNICAL SKILLS

AI & Data: RAG (Retrieval-Augmented Generation), Vector Databases, LLM Integration (GPT-4, Claude), Embeddings, Document Chunking, Semantic Search, Prompt Engineering

Languages & Frameworks: TypeScript, JavaScript, React, Next.js, Node.js (Nest.js, Express.js), Prisma, Sequelize, Drizzle, Python, Java

Data & Infrastructure: MySQL, PostgreSQL, MongoDB, Redis, GraphQL, REST APIs, WebSockets

Cloud & DevOps: VPS, Docker, CI/CD (GitHub Actions, Vercel)

Testing & Practices: Jest, Vitest, TDD, Agile, Scrum

EXPERIENCE

Coopers Digital - Software Development Company (client-based projects)

Mid-Level Full Stack Developer – **SEPTEMBER 2025 - PRESENT**

- Designed, developed, and maintained **websites, web applications and mobile apps**.
- Built and launched a **SaaS platform with a subscription-based model, acquiring 100+ active customers**.
- **Improved invoice loading performance by 66%** through query optimization and frontend performance enhancements.
- Implemented **automated tests with Jest and Vitest achieving 80% code coverage**, increasing reliability and reducing regression issues.
- Designed and optimized **CI/CD pipelines with GitHub Actions, reducing deployment time by 50%** and ensuring more consistent and reliable releases.
- Implemented **anti-bot mechanisms (honeypots), reducing fraudulent registrations by 90%** and improving data integrity.

Direção Marcas e Patentes - Brazilian Trademark and IP Firm

Junior Full Stack Developer – **NOVEMBER 2023 - SEPTEMBER 2025**

- Developed and maintained internal systems, **real-time dashboards, and CRM integrations**.
- **Automated business processes** and developed **Bitrix CRM integrations**, improving **data accuracy, streamlining workflows and enabling more efficient decision-making**.
- **Replaced third-party marketing tools (RD Station) with in-house solutions, reducing software costs by \$5,000 annually** and increasing control over lead generation and data.
- Developed an **AI-powered WhatsApp automation bot using RAG**, reducing **average first response time from 3 minutes to 5 seconds** and significantly improving customer experience.

IT Intern – **MARCH 2023 - NOVEMBER 2023**

- Developed and deployed internal systems, including a **training platform (Moodle), a POS system integrated with CRM, and a brand classification system using AI (ChatGPT API)**.
- Built a contract management system that **reduced contractual errors by 30%**.
- Configured and managed application **deployments on VPS environments**, ensuring system availability and stability.

EDUCATION

UNIASSELVI - Curitiba, PR, Brazil

Bachelor's in Software Engineering – **GRADUATED IN DECEMBER 2025**
